2011

30 May - 1 June
Budapest, Hungary

Leading the Nanotechnology Era

EuroNanoForum 2011 reveals how nanotechnology can contribute to solving the grand challenges of our time. The event covers research breakthroughs, industrial innovations and the societal impact of nanotechnology.

The three-day event includes a full conference program, an extensive exhibition and effective matchmaking to ensure that you will be able to network with leading industrial, research and political decision makers.

For the first time EuroNanoForum is joining forces with another leading European nanotechnology event, Nanotech Europe, to provide a single meeting point for the whole nanotechnology community. Previous EuroNanoForum and Nanotech Europe events have each attracted 700-1000 participants.

Nanotech Europe

Conference

The conference will cover business, research and societal topics that offer new approaches to meet the grand challenges facing Europe today: global warming, tightening supplies of energy, water and food, ageing societies, public health, pandemics and security, as well as the overarching challenge of turning Europe into an eco-efficient economy. Registration opens: Spring 2011.

Call for Presentations and Posters

Join leading researchers to showcase your work to a wide range of industrial and academic experts. Submit your abstract to apply for a prestigious speaking slot and poster place at this major nanotechnology event. The call is now open. Application deadline: 31 January 2011.

Matchmaking

Meet your next research, technology and business partners by pre-arranging meetings during EuroNanoForum. All registered conference attendees are invited to book meetings.

Exhibition

Our exhibition offers you an exceptional, focused opportunity to do business with global nanotech leaders and showcase state of the art technologies and research results. Whether you want to generate new business, or launch a new technology, product or service, exhibiting offers the perfect solution. 100 exhibition stands in five different sizes are available. Reserve your space now.

Investor Forum

The investor forum offers an overview of the most commercially promising nanotechnologies in Europe, a place to match technologies with investors and industrial partners. There are limited number of presenting slots for SMEs and researchers.
