BOULEVARD DE LA LIBERTE 1270 S 30-5-12
--

30 April 2012

Dear Colleague,

European Latsis Prize 2012

I am very pleased to enclose copies of the announcement for the European Latsis Prize 2012, the topic of which this year is "Mathematics". I would be most grateful if you could kindly circulate this as widely as possible within your organisation and other relevant communities.

We are striving to obtain a strong field of candidates from a large pool of nominees and seek your support in doing this.

A committee of high-level experts in the field will examine the nominations and make a recommendation to the Chief Executive of ESF. The date and venue of the prize ceremony will be announced later.

All nominations for the European Latsis Prize 2012 should be submitted online. Access to the nomination form can be found at www.esf.org/latsis. The deadline for nominations is **15 July 2012**.

Yours sincerely,

Martin Hynes
Chief Executive

Encl.
